The World of Sliding Wardrobes Delivered to Your Door

## Made to Measure Sliding Doors & Storage Solutions

# Made to Measure

Made easy

Hand made to your exact size, and with an infinite number of configurations to choose from. The made to measure doors are bespoke and beautiful, and are totally in your hands.

## Make use of any space...

All of our made to measure sliding doors are manufactured to your own individual specification, so you can create a truly bespoke designed floor to ceiling & wall to wall storage system.

As well as being able to make made to measure doors as large as 2450mm high & 1230mm wide, we can also make them as small as 1200mm high & 610mm wide. One of the biggest advantage is that they are totally bespoke, so you're in complete control and the final product will be to your individual style and requirements. Also featuring the soft-close system on all doors above 1200mm high and 650mm wide.

Combine panels and frames to create a classic or contemporary finish, by mixing either wood effects or glass options together. With a large array of combinations available, your choices are endless.

See page 23 for the NEW Automatic lighting system for all of our Made to Measure Doors, plus the NEW Angled ceiling bracket for fitting doors into smaller heights. Perfect for fitting into the eaves in attic conversions. (Minimum height of 1200mm).

of **2450mm**

# Maxima

## made to measure doors

Create, Combine & Inspire

The soft curved profile of the Maxima door is created by using a high grade anodised aluminium frame, which helps make these doors glide effortlessly. Combine any wood or glass panel options to create a classic or contemporary finish from the panel options featured overleaf.

- Made To Measure
- Available in 2,3 & 4 panel configurations
- 12 different glass panel options & 5 wood effect finishes
- Frame available as Anodised Aluminium
- Minimum door width 610mm
- Maximum door width 1230mm
- Minimum door height 1200mm
- Maximum door height 2450mm
- Soft close system as standard

# Maxima

Framed perfectly within a beautifully curved Aluminium frame. This contemporary style complements any modern room, giving it that luxury feel which will capture anyone.

Now available in either a 2, 3 or 4 panel option, and with an extensive range of up-to-date and on-trend colours and finishes to choose from, the Maxima range is simply stunning and will stand proud in any room.

# Gliss

## made to measure doors

Create, Combine & Inspire

The Gliss range is unashamedly Italian influenced and makes a bold statement in any modern home. Rich glass colours add warmth and drama and just ooze luxury. The subtle, brushed aluminium centre strip is deliberately understated, allowing Only the glass panels to dominate the design to a breathtaking effect.

- Made To Measure
- Available in 2 & 4 panel configurations
- 12 different glass panel options & 6 wood effect finishes
- Frame available in Aluminium
- Minimum door width 610mm
- Maximum door width 1160mm
- Minimum door height 1200mm
- Maximum door height 2450mm
- Soft close system as standard

## Gliss

Framed perfectly with minimal amount of aluminium showing, the minimalist style complements any modern room. Match glass panels together or make a bolder statement by contrasting glass colours in any combination.

Now available in either a 2 or 4 panel option, and with an extensive range of up-to-date, on-trend colours and finishes to chose from. The Gliss range is simply stunning and will stand proud in any room.

\*Swatch colours are only representative and are as close a match to the actual product as possible. These may differ slightly due to printing restrictions.

## Accessories for MTM Doors

### Make use of any space...

**Maximise any space, and create jaw dropping features in any room by installing these bespoke sliding doors.**

As well as being able to make these doors as large as 2450mm high & 1230mm wide (each door has its own unique maximum width), we can also make them as small as 1200mm high & 610mm wide.

One of the biggest advantages of made to measure is that they are totally bespoke, so you're in total control and the final product will be to your individual style and requirements.

All doors feature the new soft-close system as standard, when above 1200mm high and 650mm wide.

## Angled ceiling bracket

NEW to the made-to-measure range and adding additional flexibility when coming to utilising any space in your home. The NEW angled ceiling bracket will allow you to fit your doors onto any sloping ceiling, perfect for installing the doors onto eaves in your attic space.

Positioned at any height on your eaves

## Automatic Lighting

New to the made to measure sliding door range, is our automatic lighting system. This lighting system slots between the ceiling and top track, and automatically turns on and off when you open and close your sliding doors. Easy to fit, just simply plug and play.

(Please note: You will need 1 infra-red fitting for every light pack purchased)

# MTM Doors

## Colour panel options

Our made to measure sliding door range now has an even larger selection of panels available, making the choice even greater and even more to your style. With a mixture of classic colours to choose from, we have also now introduced the most on-trend colours as well, so you can truly design your own bespoke doors.

*By combining these frame and panel finishes together, you can be as creative as you want. Designing your own unique style.*

# Measuring Up

## for MTM Doors

### 1. How to measure up for made to measure doors

Measure your opening height and width at the five points indicated on the main diagram to the right, then write down your measurements in the boxes provided in step 3 of the order form.

**Note:** The minimum door width is **610mm**. Maximum door width is **1180mm** for Minima, **1180mm** for the Gliss, **1230mm** for Maxima, **1160mm** for the Shaker and **1220mm** for the MTM Classic. With a maximum door height of **2450mm** (**2440mm** for the MTM Classic only).

If there is a difference between the measurements of heights A, B or C, this means that your ceiling and floor are not parallel. Your track-set will allow for a difference of up to 25mm, but if the difference exceeds this you will need to make adjustments to your ceiling or walls. (See diagrams 1b, 1c & 1d).

Write down your measurements in mm (max opening height 2450mm, max opening width 4555mm), in boxes A - E on the order form referring to the diagrams on the right for additional help.

### 2. How many doors do you require?

**Please Note:** That when working out your individual door widths, that these measurements will vary slightly due to the amount of overlaps that will be required. We will calculate these for you.

**NB.** If using a 900mm drawer for your interiors, your door size must be wider than this to allow the drawer to be opened. This also applies to the Telescopic Pull Down Hanger Bar.

### 3. Panel guide for made-to-measure doors

Create your own unique look by combining the different frame finishes with the variety of panel options, within each made to measure door style. (See the opposite page for the full colour range).

# Alumé

## Modular storage solutions

Create, Combine & Inspire

Whether you want to create a standard wardrobe or walk in wardrobe, this storage system is versatile enough to transform any interior with its multi- function shelving and drawer modules.

Simple to build with endless combinations to fit even the most awkward spaces. These components are designed so you get the maximum functionality out of any wardrobe space.

- Draws and shelves available in both Walnut & Linen.
- Posts fit ceiling to floor.
- Drawer and Shelving dimensions ### & ###mm wide x ###mm deep.
- Castor packs are available to fit to draw-packs

**blum** soft close

# Alumé

## Storage Solutions

Alumé storage solutions are available in both Walnut and Linen, and come in 2 widths of 550mm and 900mm x 500mm deep. The system offers an adjustable opening height between 2110mm – 2700mm with stanchions that fit floor to ceiling.

(The full component range is displayed on the page overleaf)

Alumé is our most premium modular storage system. It follows the same modular concept as Aura, but the design and finish of the extruded aluminium posts, and the quality of motion in the 'Blum' soft close drawer runners adds a level of luxury that begs to be shown outside of the wardrobe. In fact this product is also sold throughout Europe as designer living room storage.

13	Shelf bracket	Aluminium	n/a

## Planning and installing the Alumé Storage System

### Step 1 Measure up

Measure the width and height of the space available for your storage solution.

### Step 2 Calculate components

By choosing different drawer and shelving sizes you can create a unit to fit any individual space, which can be adapted to suit your changing needs, whenever you want.

### Step 3 Fitting your storage system

All components come with detailed instructions on how to install. Make sure you pick up everything you need to complete your project.

For further help on installing please visit [www.slidingwardrobeworld.com](http://www.slidingwardrobeworld.com)

Step 1. measuring up

Step 2. calculating components

Step 3. fitting your system

## Getting you started...

Putting the Alumé Storage system together for the first time can appear quite daunting. As a helping hand, these 4 starter kits have been developed to help kick start your Alumé system successfully.

### Kit 1 (up to 3100mm) Includes:

- 3 x Alumé Aluminium Floor to Wall Posts
- 3 x Alumé Aluminium Hanger bars and fixings 1200mm
- 2 x Alumé Aluminium Shoe racks and fixings 1200mm
- 3 x Alumé 550 x 500mm Shelves

### Kit 2 (up to 2210mm) Includes:

- 3 x Alumé Aluminium Floor to Wall Posts
- 1 x Alumé Aluminium Hanger bars and fixings 1200mm
- 4 x Alumé 900 x 500mm Shelves

### Kit 3 (up to 3460mm) Includes:

- 4 x Alumé Aluminium Floor to Wall Posts
- 2 x Alumé Aluminium Hanger bars and fixings 1200mm
- 4 x Alumé 900 x 500mm Linen Shelves

### Kit 4 (up to 1260mm) Includes:

- 2 x Alumé Aluminium Floor to Wall Posts
- 2 x Alumé Aluminium Hanger bars and fixings 1200mm
