why choose sliding doors & modular storage?

Maximise your space with custom sliding doors that fit any space from 1.15 - 2.48m high and 1.1 - 4.55m wide.

Add, swap and adapt your storage as many times as you desire to suit your lifestyle and needs.

Personalise your doors with endless configurations and colours to choose from.

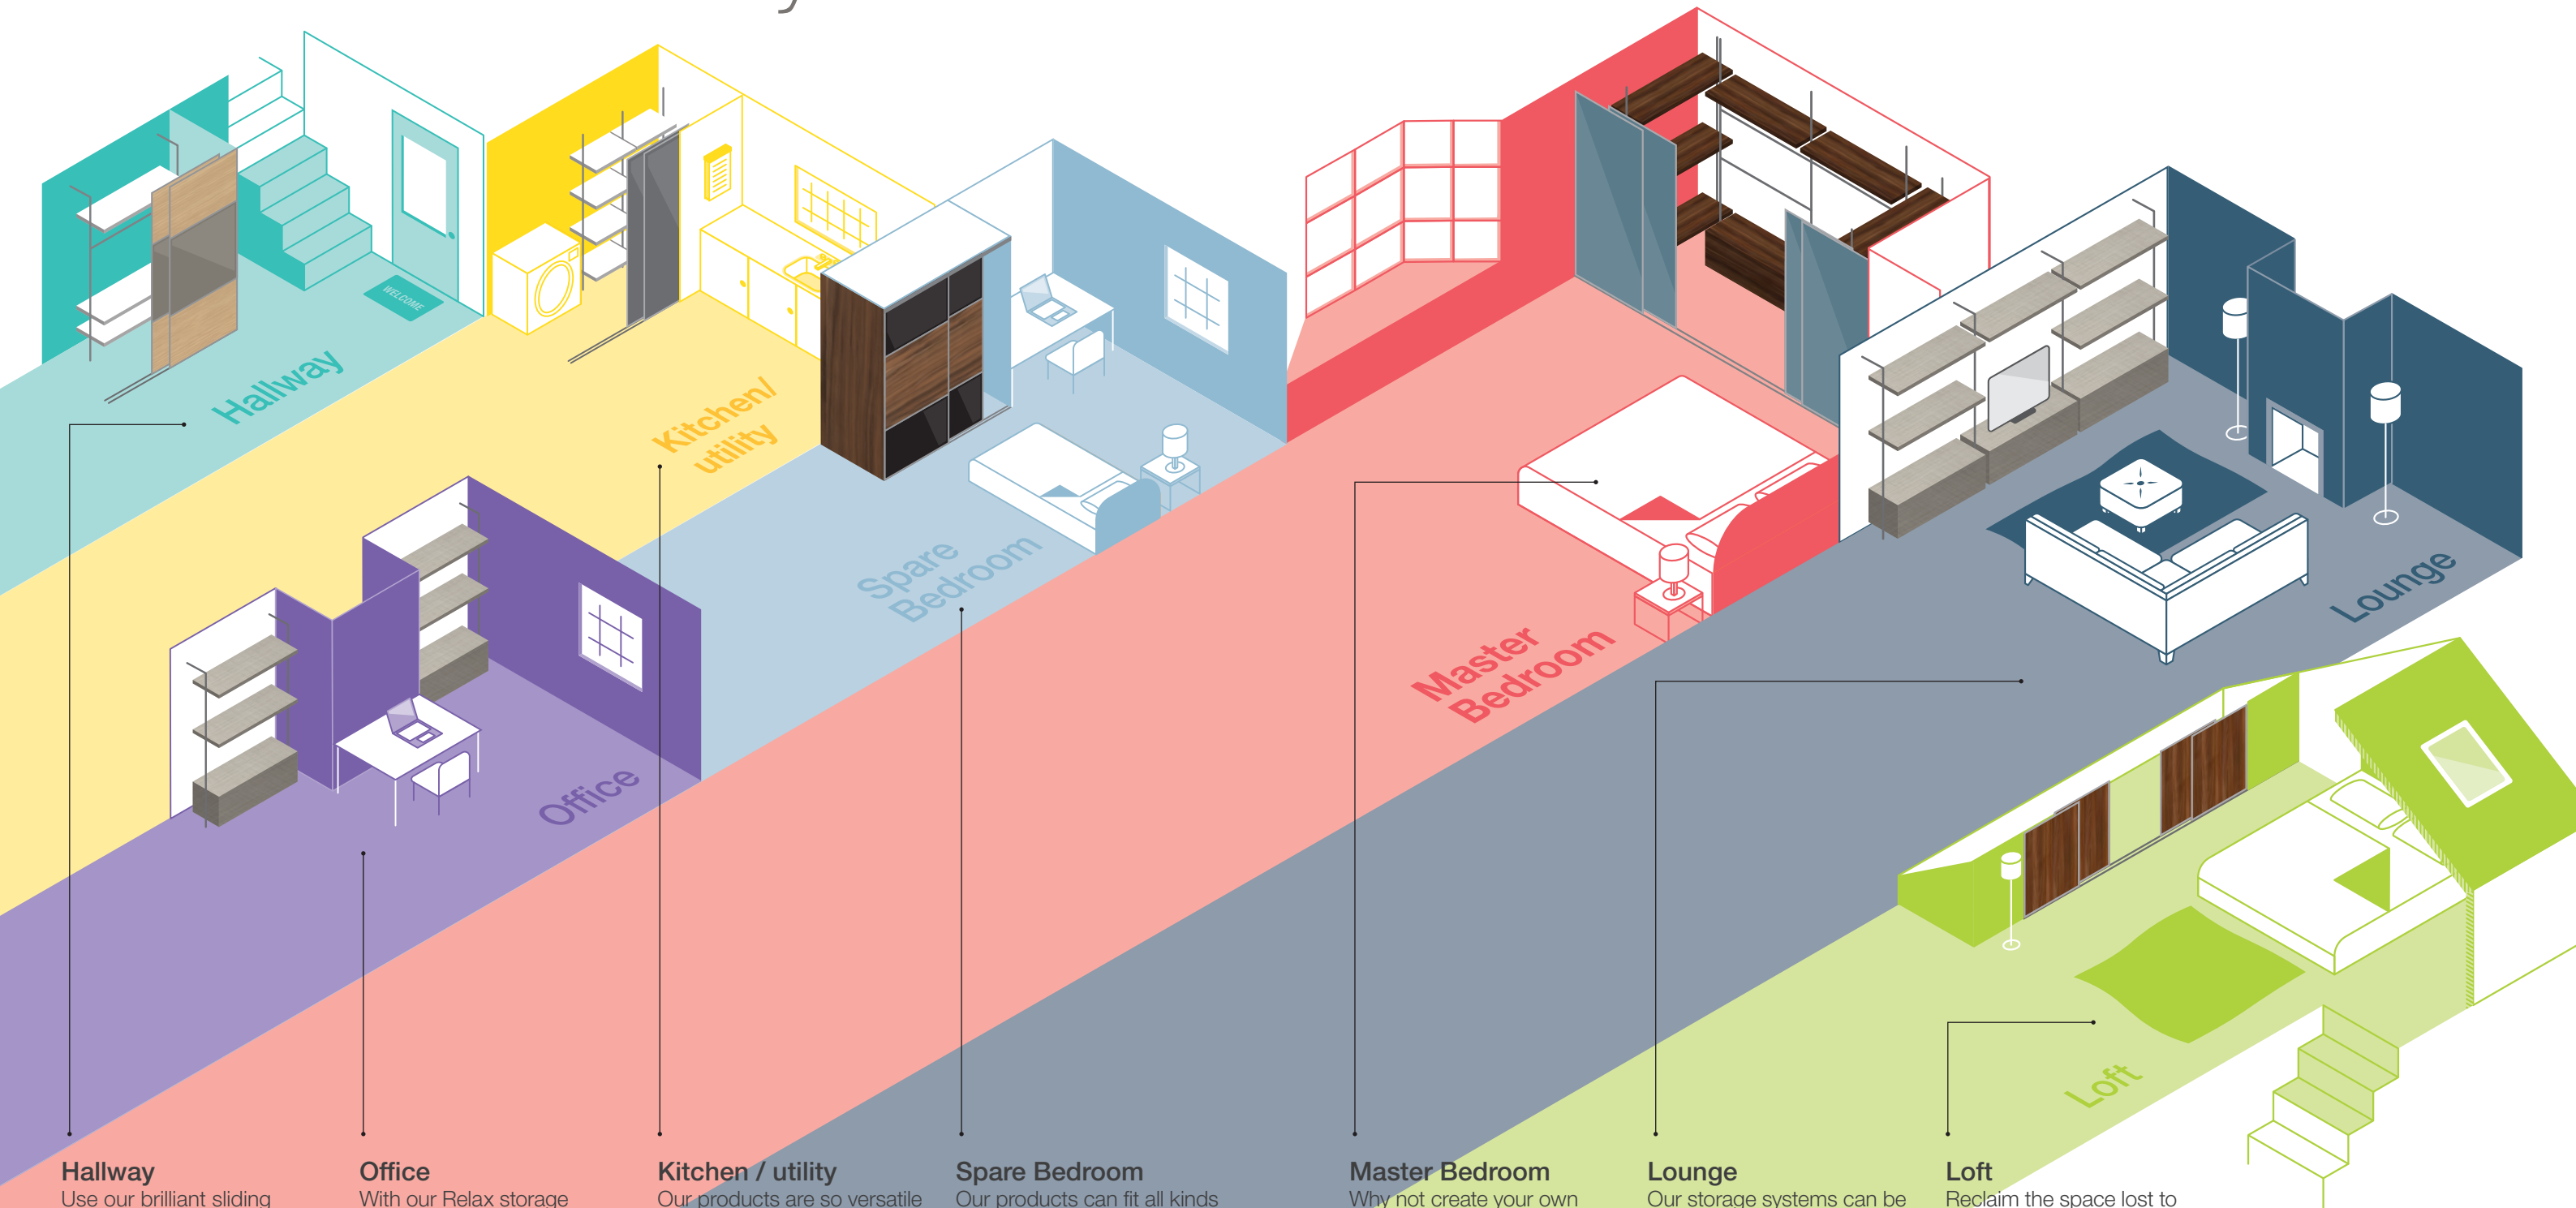

Why not complement your doors with matching interiors and furniture. See page 44.

**Save up to 500mm
in front of your wardrobe**

3x Classic fineline doors, Grey Mirror & Cashmere with a Cashmere frame and Relax storage system in Walnut.

solutions for every room

Hallway
Use our brilliant sliding doors to cover all your hallway clutter.

Office
With our Relax storage system, you can make even the most awkward spaces usable.

Kitchen / utility
Our products are so versatile that you can use them in a utility room to store away all your groceries. Our sliding doors make perfect room dividers.

Spare Bedroom
Our products can fit all kinds of spaces. You don't need a big room to create your dream look.

Master Bedroom
Why not create your own walk-in wardrobe? Bring that touch of luxury into your bedroom.

Lounge
Our storage systems can be used outside of a wardrobe to help you achieve that wow factor in your home.

Loft
Reclaim the space lost to pitched roofs. Make your loft room just as stunning as the rest of your home.

heritage

When all you're looking for is simplicity, this traditional design provides exactly that and more.

Storage configurations

The modular accessories can be easily moved around to suit any need. Make the Aura system work around you.

Aura shelf bracket. Using 50mm increments.

The Aura system is simple to install and the accessories hook in and out of the stanchions making it really easy to arrange your storage how you need it.

Walk-in Relax storage system in Grey Textile.

alume (relax)

Truly versatile, the Relax modular storage system not only does the job, but looks great doing it.

The Relax storage system offers excellent flexibility; this modular, stanchion based system can run from floor to ceiling or floor to wall depending on your space and needs.

Within the system you can add, change and move the components as frequently as you like. Some people fold all their clothes, some people hang all their clothes – either way our storage solutions allow you ultimate flexibility. You can even have floor to ceiling shoe racks should you wish!

end panels & fillets

These are a fantastic way to create the look you want.

In addition to wall to wall, sliding door wardrobes can also be created using end panels and fillets. End panels are large sections of timber used to create an artificial end for the doors to run up to. We supply these end panels in various finishes to match your doors.

Our fillets can be used along side our fitting accessories if you need to reduce your height or if you need to build in from a wall.

End panels can be used for **both wall to end panel** or **end panel to end panel**.

Trackset B For Ellipse, Switch, Minimalist, Titan, Domalti & Contour.	Satin Silver	Satin Silver	Satin Silver

plan your space for sliding doors

1. Measure up

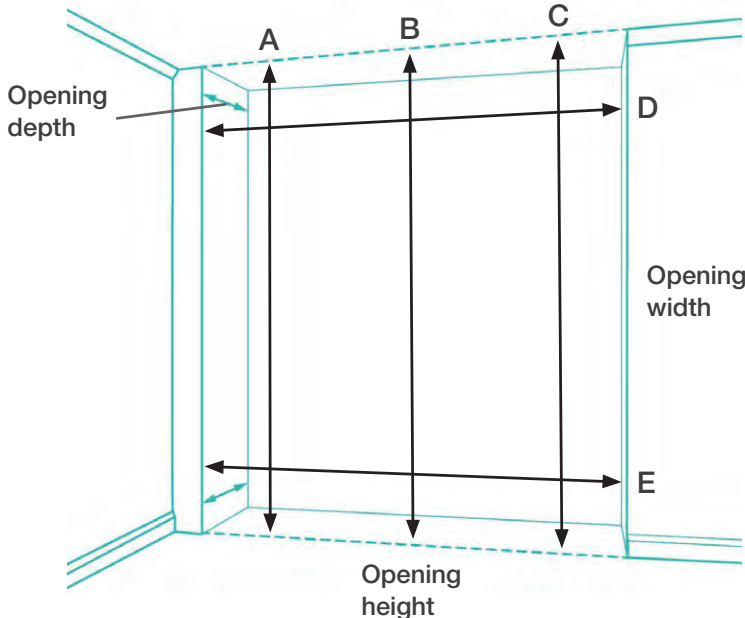

It's really important to prepare your project by measuring up your space to ensure your doors fit correctly.

Why we need your measurements:

Height – No ceiling and floor are perfectly level so to ensure our doors fit correctly we need 3 measurements A, B and C. Our doors are made to the smallest height to guarantee the doors slide effortlessly.

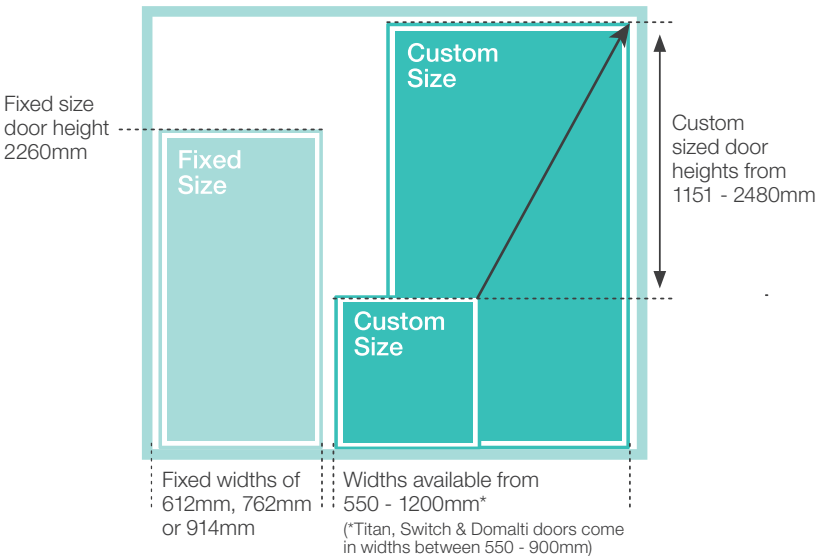

Width – Measure at the top and bottom of your space D and E.

Depth – Our interior systems require a minimum depth of 620mm.

2. Identify your space

Once you know what space you have to work with, we have 2 door options to help you achieve your project. Using our fixed or custom doors you will be able to maximise your space and organise your belongings with ease using our sliding wardrobes.

Calculate how many fixed sized doors you need

Use the table to find out which fixed sized doors and tracksets work best with your opening space.

*The 'ideal opening width' is the best opening width that allows for the door frames to perfectly overlap. Each door frame is different: Heritage 25mm, Classic 35mm, Shaker 75mm, Contour 35mm, Ellipse 55mm, Minimalist 20mm, Titan 30mm, Switch 25mm and Domalti 25mm.

Ideal opening width* for 2 doors = (2 x Door width) — (1 x Overlap)
Ideal opening width* for 3 doors = (3 x Door width) — (2 x Overlaps)
Ideal opening width* for 4 doors = (4 x Door width) — (2 x Overlaps)

Example 1: Minimalist 2 Door opening
(2 x 610mm wide doors = 1220mm) Deduct 20mm for a single overlap = 1200mm opening width.

Example 2: Classic 3 Door opening
(3 x 762mm wide doors = 2286mm) Deduct 70mm for 2 overlaps = 2216mm opening width.

Example 3: Shaker 4 Door opening
(4 x 914mm wide doors = 3656mm) Deduct 150mm for 2 overlaps = 3506mm opening width.

3. Choose fixed or custom sized doors

Build down

If you need to prepare your opening space use our range of fitting accessories.

Selected panel choices

Available in our most popular colours and finishes.

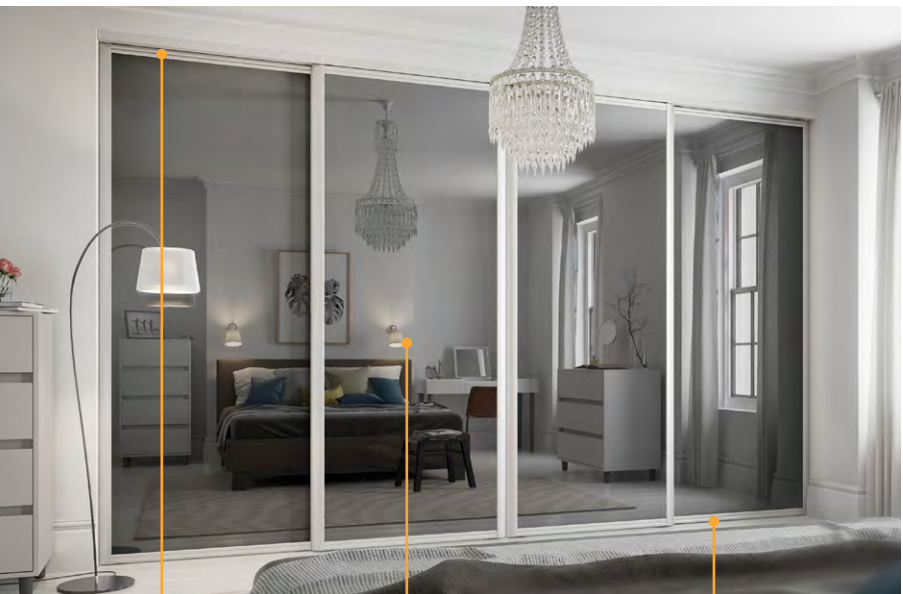

Build to an end panel

Create a space that works for you by building to an end panel.

Fixed sized doors

Suited to those that are DIY savvy. Fits an opening space of **2260mm** high and up to **3606mm** wide. Doors come in 3 widths: **610, 762 and 914mm**.

- Trackset sold separately
- Selected glass and panel options available
- Build or adjustment of your opening may be required
- Heritage doors only are available as a fixed 1150mm high door

Fits all spaces

Made to your exact opening space so installation is straight forward.

Wider choice of panels...

Including on-trend colours and more ways to personalise your door with different configurations.

Tracksets included

To match your door frame and arrive already cut to size for your opening space.

Custom sized doors

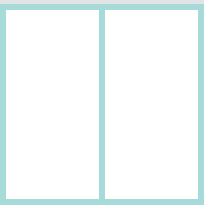

Simple installation with little effort required. Made to fit an opening space from **1151 to 2480mm** high and up to **4555mm** wide.

- Made to fit any opening space
- Colour matched trackset is included
- More glass and panel options available
- Simply fit your tracks then your doors
- Will take you approximately 2 hours to fit
- Soft close comes as standard on custom sized doors

information

Number of overlaps required:

2 door opening

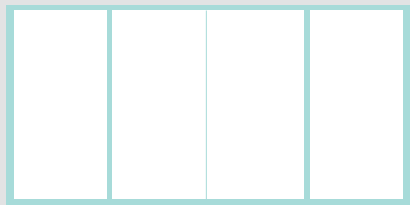

1 Overlap

3 door opening

2 Overlaps

4 door opening

2 Overlaps

Make sure to choose the appropriate trackset for your ideal opening width. For more information on tracksets and adjusting your opening width or height to fit your opening space turn to page 54.

plan your space for storage

1. Measure up

It's really important to prepare your project by measuring up your space. This will ensure your storage systems fit perfectly and inform what you do.

2. Choose your storage system

Now you have your measurements, you can start to plan your interior storage solution. Spacepro stanchion based systems can run from floor to ceiling or floor to wall depending on your space and needs.

3. Plan your storage

Start with one column on the left of your space and then add on additional columns until you have filled your space. Most accessories are 550mm or 900mm but our adjustable hanger bars can be used to fill in that extra space.

Aura
Stanchion width **25mm**

For **550mm** accessories.
Width plus 2 stanchions = **600mm**

For **900mm** accessories.
Width plus 2 stanchions = **950mm**

Relax
Stanchion width **30mm**

For **550mm** accessories.
Width plus 2 stanchions = **610mm**

For **900mm** accessories.
Width plus 2 stanchions = **960mm**

Using Aura storage system:

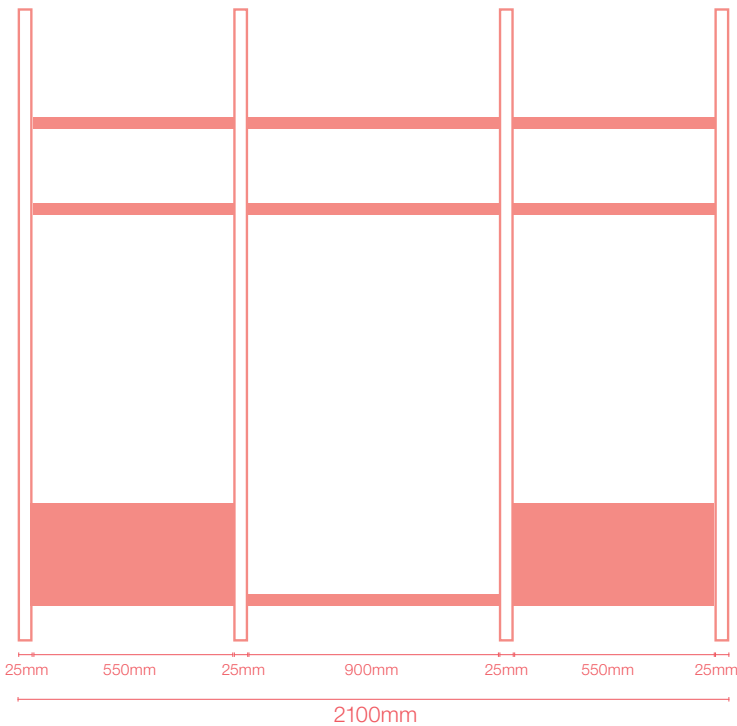

4x Aura stanchions = **100mm**

2x 550mm accessories = **1100mm**

1x 900mm accessories = **900mm**

Total Width needed = **2100mm**

(Relax total equivalent = **2120mm**)

Accessory placement & arrangement with doors

When using any pull out accessory (i.e. drawers) we recommend making your door at least **80mm** wider than the storage column behind it.

40mm 40mm

2

For a 2 door opening
Position the drawer to the left or right hand side.

3

For a 3 door opening
Position the drawers to the left or right hand side.

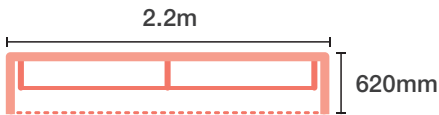

4

For a 4 door opening
Position the drawers to the far left, middle or right hand side.

Just look at what you can achieve with the Spacepro interior storage systems...

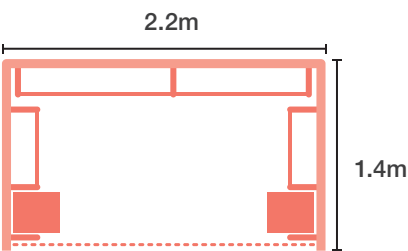

Reach-in wardrobe

We recommend a reach in to wardrobe to be a minimum of 620mm deep to fit your hangers comfortably.

Walk-in wardrobe

With just 1.4m you can get your very own glamorous walk-in wardrobe.
