WHY CHOOSE SLIDING DOORS & MODULAR STORAGE?

Designed around you and your room, our sliding doors and storage systems not only ensure you get the maximum use out of your space, but come with a huge range of designs and finishes so that you can achieve a look that is truly personal to you.

THE PERFECT FIT

Sliding doors that fit any space from 1.15 - 2.48m high and 1.15 - 4.55m wide with a selection of fixed and custom sized doors, plus accessories to fit them.

WALL TO WALL

WALL TO END PANEL

END PANEL TO END PANEL

LOFT / ANGLED CEILING

ADAPT YOUR STORAGE

Add, swap and adapt your storage as many times as you desire to suit your lifestyle and needs.

PERSONALISE

Personalise your doors with endless configurations and colours to choose from.

MAXIMISE YOUR SPACE

Save up to 500mm of floor space in front of your sliding wardrobes. With sliding doors, you don't need to allow any space in front of the wardrobe that you typically would for a hinged wardrobe.

Save up to 500mm of floor space with sliding doors.

TRANSFORM YOUR SPACE

With any hinged wardrobe, a lot of space is wasted in front, on the sides and above the actual wardrobe. Our floor to ceiling designs and modular interior solutions allow you to make use of every inch of space... without any unsightly clutter!

GET THE LOOK

Modular storage that can change whenever you need.

 **SlidingWardrobeWorld**
The World of Sliding Wardrobes Delivered to Your Door

LOUNGE

Storage systems that are not only stylish but functional too. Turn unused areas into a handy office space!

LOFT

Reclaim the space lost to pitched roofs. Make any loft space just as stunning (and functional) as the rest of your home.

HALLWAY

Use our sliding doors to cover all of your hallway clutter.

OFFICE

With our Relax storage system, you can make even the most awkward spaces usable.

BEDROOM

Bring that touch of luxury into your bedroom. Why not create your own walk-in wardrobe?

KITCHEN / UTILITY

Our storage systems can be used anywhere around the home to help you organise your home.

SOLUTIONS FOR EVERY ROOM

Get creative - our doors and storage systems are not only for the bedroom! Hide away boots and coats in the hallway, turn awkward spaces into a home office, transform the eaves in your attic into useful storage or even add a bit of luxury with your very own walk in wardrobe!

UNDER STAIRS

Transform unused areas to create extra storage and work space

HOME OFFICE

Create stunning work spaces with our modular storage systems, that can be adapted and changed at any time to suit your needs.

LOFT

Our stanchions can be trimmed to any size to fit even the most smallest of spaces.

WALK-IN WARDROBE

Whether it's a small wardrobe or walk-in closet, our storage systems can be built for any space.

WARDROBE INTERIOR

Our storage systems work well both behind sliding doors or as a stylish stand alone piece of furniture.

NO MORE WASTED SPACE

Wasted space can be a thing of the past when using our modular storage systems to maximise unused areas around the home. With a range of different storage systems to choose from and a choice of complementary finishes, our selection of furniture will work inside the wardrobe or on full display.

Shown here: Aura interior in White.

AURA

The Aura storage system runs floor to ceiling and can adapt with any lifestyle. Reorganise your storage, add accessories, shoe racks or additional shelving whenever you need.

The Aura brackets simply slot into the pre-drilled holes on the stanchions for an easy fitting.

STORAGE CONFIGURATIONS

The modular accessories can be easily moved around to suit any room. Small, medium or large bedrooms, our modular storage systems adapt around you.

PLANNING YOUR SLIDING DOORS

Now it's time to measure up and choose which doors would best suit your needs and space.

1 MEASURE UP

It's really important to prepare your project by measuring up your space, ensuring all doors fit correctly.

Why we need your measurements:

Height – No ceiling and floor are perfectly level, so to ensure our doors fit correctly we need 3 measurements A, B and C. Our doors are made to the smallest height to guarantee the doors slide effortlessly.

Width – Measure at the top and bottom of your space D and E.

Depth – Our interior systems require a minimum depth of 620mm.

2 IDENTIFY YOUR SPACE

Once you know what space you have to work with, we have two door options to help you achieve your project. Using our fixed or custom sized doors you will be able to maximise your space and organise belongings with ease.

3 CHOOSE FIXED OR CUSTOM SIZED DOORS

	SIZES	FINISHES	SOFT-CLOSE INCLUDED	TRACKSET	FITTING ACCESSORIES	INSTALLATION TIME
FIXED SIZE DOORS	Available in 3 widths 610, 762 & 914mm. Fits height of 2260mm	Selection of finishes	N/A	Sold separately - will need to be cut to size. Silver and White only	If room height is over 2260mm then fitting accessories will be needed	Allow some additional time to cut track sets to size.
CUSTOM SIZED DOORS	Made to fit any opening	Full range of finishes	✓	Included and cut to your opening. Colour matched to frame	Made to fit your opening.	All items are made to fit, so each item can fit right in.

CALCULATE HOW MANY FIXED SIZED DOORS YOU NEED

When buying one of our fixed sized door options you will need to calculate how many doors you need to fit your opening as well as what width of door.

As each of our door frames is different, we have created a simple calculation table to do this.

See page 51 for each door frame dimension.

Ideal opening width* for 2 doors = (2 x Door width) – (1 x Overlap)

Ideal opening width* for 3 doors = (3 x Door width) – (2 x Overlaps)

Ideal opening width* for 4 doors = (4 x Door width) – (2 x Overlaps)

Example: Classic 3 x Door opening (3 x 762mm wide doors = 2286mm) Deduct 70mm for 2 overlaps (Classic frame is 35mm wide) = **2216mm opening width.**

PLANNING YOUR MODULAR STORAGE

Whether you’re planning a standalone interior system or storage behind your sliding doors, use our guide to help you plan the best configuration for your space.

1 MEASURE UP

It’s really important to prepare your project by measuring up your space. This will ensure the chosen storage system fits perfectly.

2 CHOOSE YOUR STORAGE SYSTEM

Now you have your measurements, you can start to plan your interior storage solution. Our stanchion based systems can run from floor to ceiling or floor to wall depending on your space and needs.

RELAX
Stanchion width 30mm

For 550mm accessories.
Width plus 2 stanchions
= 610mm

For 900mm accessories.
Width plus 2 stanchions
= 960mm

AURA
Stanchion width 25mm

For 550mm accessories.
Width plus 2 stanchions
= 600mm

For 900mm accessories.
Width plus 2 stanchions
= 950mm

3 PLAN YOUR MODULAR STORAGE

When planning your modular storage interior, start with the first column to the far side of your space, then add on additional columns until you have filled your space.

Most accessories are 550mm or 900mm wide, but we have adjustable components that can be cut to size to fill in that extra space.

ACCESSORY PLACEMENT & ARRANGEMENT WITH DOORS

When using any pull out accessory (i.e. drawer units) we recommend making your doors at least 100-200mm wider than the storage column behind. This gives you plenty of breathing space for the drawers to open without clashing where the doors cross over.

2 door opening
Position the drawer to the left or right hand side.

3 door opening
Position the drawers to the left or right hand side.

4 door opening
Position the drawers to the far left, middle or right hand side.

Shown here: Minimalist frame and track in Matt Black.

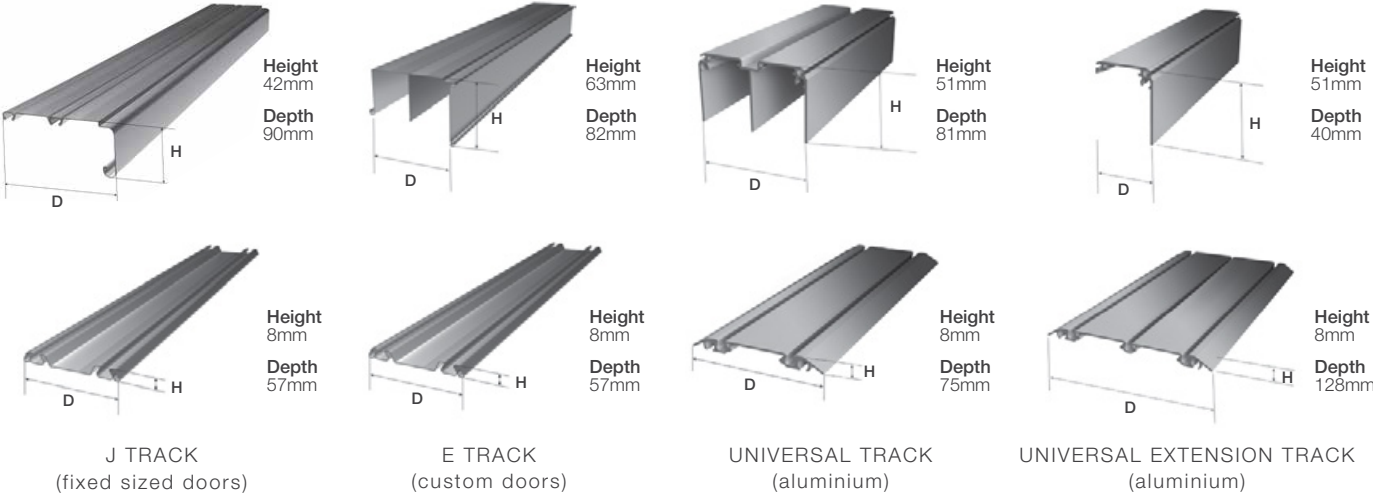

PRODUCT SPECIFICATION

With different frames, styles and tracks available, take a closer look at how our sliding doors work and operate.

FRAME SIZES

TYPES OF TRACK

HOW OUR DOORS FIT

Our doors operate as a 'weight bearing' bottom rolling system with inclusive anti-jump.*
Guides inside the top track ensure the doors run smoothly.

*Anti-jump feature only on our steel doors. The aluminium doors feature our sprung loaded bottom guides.

SlidingWardrobeWorld
The World of Sliding Wardrobes Delivered to Your Door

spacepro
HOME

One of the biggest features of all of our products is the flexibility they offer to any given space. We can make any space work twice as hard, and any room twice as useful!
