All our wood
materials are
**SUSTAINABLY
SOURCED**

Maximise your space with custom sized doors that fit any space from 1.15 - 2.48m high & 1.15 - 4.55m wide.

Mix and match finishes to create your perfect combination.

Choose any storage layout to best suit your space and needs.

Matching End panels & Liners available.

SlidingWardrobeWorld
The World of Sliding Wardrobes Delivered to Your Door

NO SPACE WASTED INSIDE ALCOVES.

BUILD AROUND DOORS AND WINDOWS,
OR ANY OTHER OBSTRUCTION.

FREE UP YOUR FLOOR SPACE

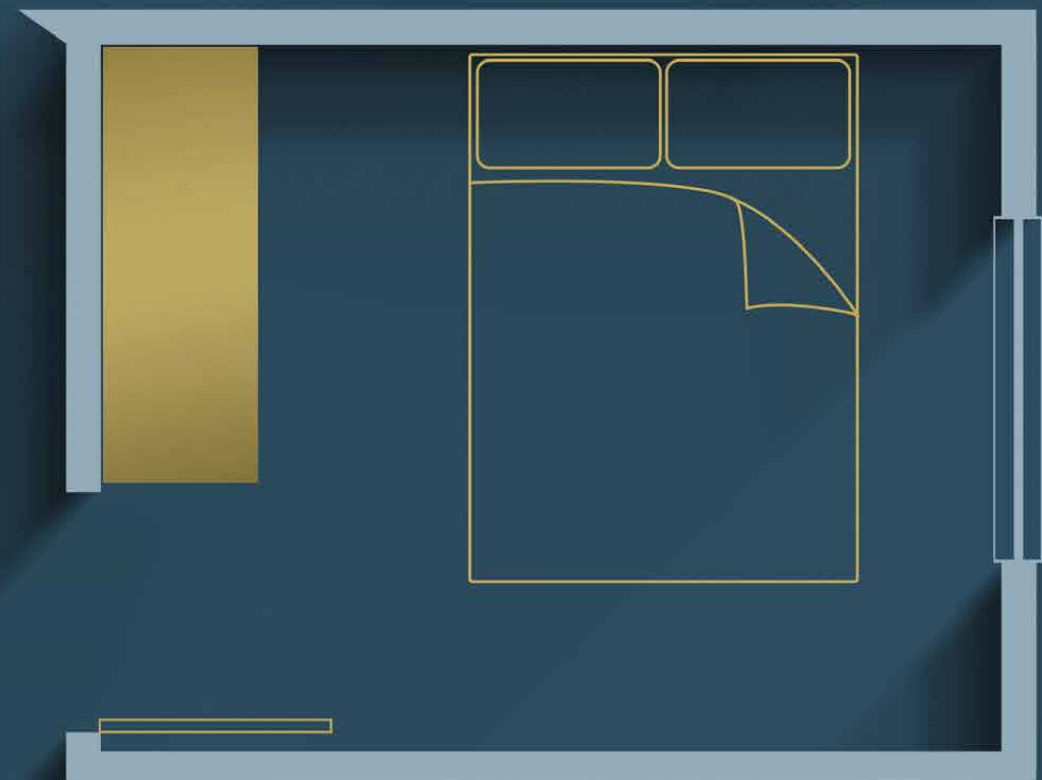

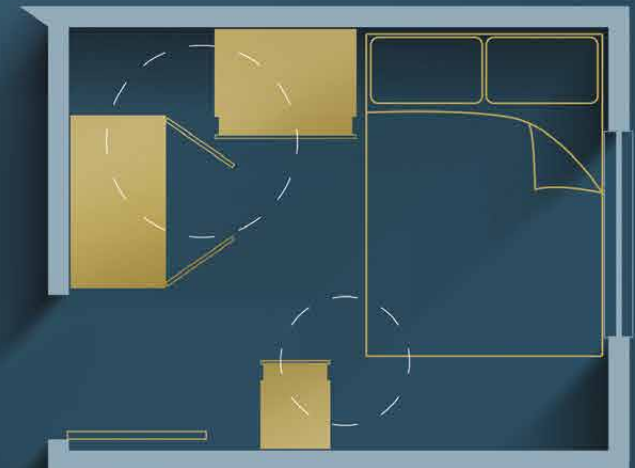

Small rooms, large rooms, alcoves, lofts and all the awkward spaces in-between!
Choose a wardrobe made for every space.

► BEFORE

Hinged wardrobes can restrict movement and limit storage space. Meaning more furniture is needed to store your clothes!

▼ AFTER

Floor to ceiling sliding wardrobes create more storage, allowing you to put everything in one place! Leaving you with more space to move.

MEASURING UP FOR SLIDING WARDROBES

It's really important to prepare your project by measuring your space, ensuring all doors fit correctly, so they run as smoothly as possible!

WHERE TO MEASURE

Height – No ceiling and floor are perfectly level, so to ensure our doors fit correctly we need 3 measurements A, B and C. Our doors are made to the smallest height to guarantee the doors slide effortlessly.

Width – Measure at the top and bottom of your space D and E approximately 200mm in.

Depth – The wardrobe doors need to be measured and fitted at a minimum depth of 620mm (to the front of the doors). This allows for our storage systems to perfectly fit behind.

MEASURING UP FOR THE RIGHT DOORS

Our wardrobe doors are available as three different sizing options - our custom sized doors, fixed sizes doors and wardrobe kits. Each has its own benefits, based on size, cost and design options.

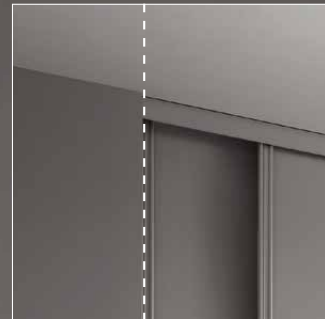

See individual product page for design possibilities and the next page to compare which sizing option is right for you.

PAIRING WITH OUR WARDROBE STORAGE SYSTEMS

All our storage systems can be arranged to suit your needs, utilising the full width and height of the interior. Our Relax and Aura storage system can be fitted to heights of 2.7m, with our tower & shelving units at 2.1m.

See individual product page for design and sizing options.

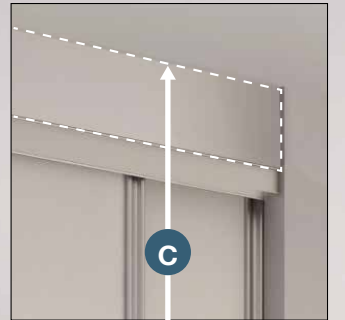

Measure between walls, or up to an end panel.

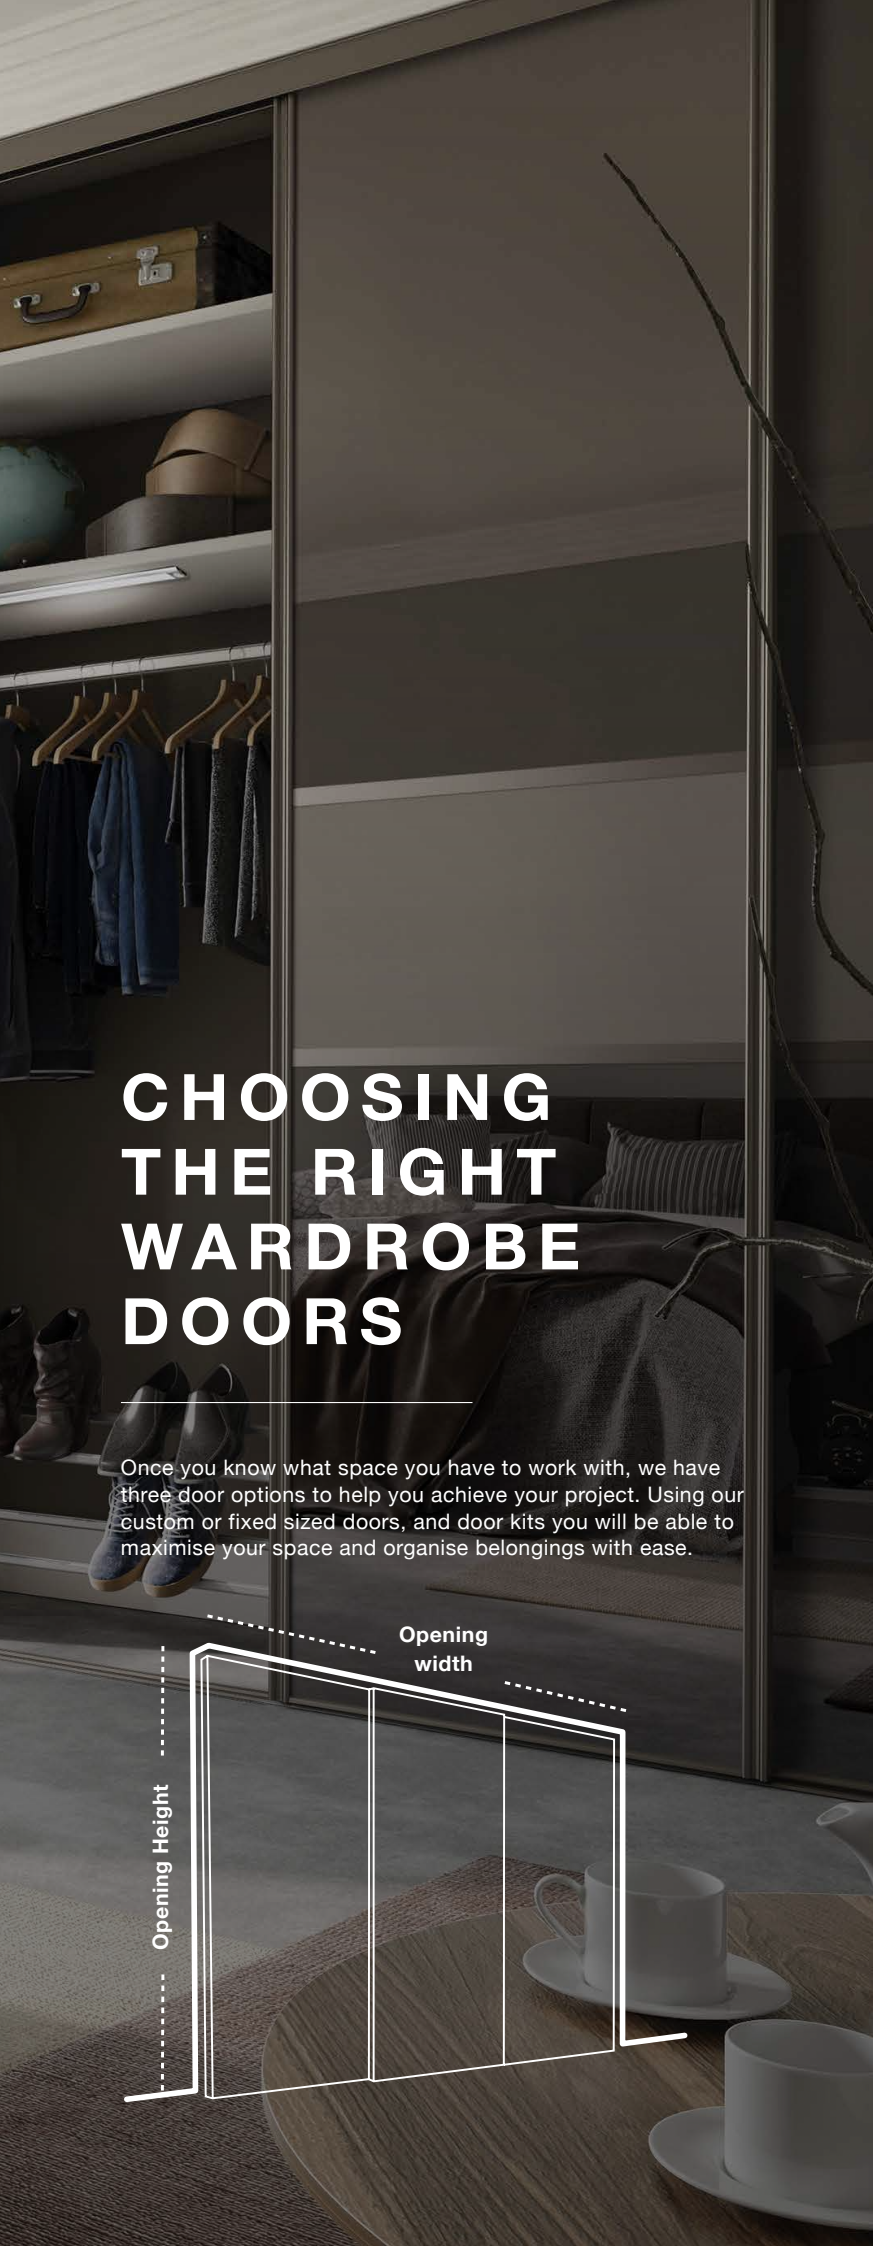

End panels are perfect when building up to a door or window, but always allow for an 18mm panel to be included in the overall width.

Minimum depth from back wall is 620mm.

Fixed sized doors may require a liner to build down. See p58.

SlidingWardrobeWorld
The World of Sliding Wardrobes Delivered to Your Door

CUSTOM SIZED WARDROBES

OPENING DIMENSIONS

From 1.15 to 2.48m tall
From 1.15 - 4.55m wide

Our custom sized doors take care of everything. Choose any design and panel finish, then have your wardrobe made to fit the space perfectly. Complete with colour matched tracksets and soft close included as standard.

FIXED SIZED WARDROBES

OPENING DIMENSIONS

Minimum 2.26m tall
From 1.2 - 3.6m wide

Available in 3 widths (610, 762 & 914mm). Each door fits a minimum opening height of 2.26m.

Buying each door individually allows you to mix and match colours or designs (within the same collection). Door tracksets sold separately.

WARDROBE KITS

OPENING DIMENSIONS

Minimum 2.26m tall
Opening widths based on choice

Available in 2, 3 and 4 doors. Each door fits a minimum opening height of 2.26m.

Perfect for quick wardrobe solutions, where you choose the preferred wardrobe opening for your room. Complete with colour matched tracksets.

STEEL TRACKSETS

All our custom sized doors come complete with colour matched tracksets and are cut to size, ready for install.
For our fixed sized sliding doors, you will need to purchase the tracksets separately. Available in: **1803mm, 2692mm & 3606mm.**
Colour matched to door frames.

HOW OUR STEEL DOORS FIT

Our steel doors operate as a 'weight bearing' bottom rolling system with inclusive anti-jump. Guides inside the top track ensure the doors run smoothly.

SpacePro x SlidingWardrobeWorld.com

One of the biggest features of all of our products is the flexibility they offer to any given space.
We can make any space work twice as hard, and any room twice as useful!
